Charlotte Ross (1843-1916) belonged to the first generation of women to practice medicine in Canada and was Manitoba's first qualified woman doctor. From the author of *The Iron Druid Chronicles* comes a rollicking urban-fantasy adventure featuring Atticus O'Sullivan. Atticus has a history of messing with the gods, and now he'll have to outfox a deity at her own deadly cat-and-mouse game. When he's not vanquishing villainous gods or dodging demons, two-thousand-year-old Druid Atticus O'Sullivan can be found behind the counter of Third Eye Books and Herbs in modern-day Tempe, Arizona, literally minding his own business. But when an evil sorcerer—and amateur shoplifter—snatches an ancient Egyptian tome of black magic, *The Grimoire of the Lamb*, Atticus is not sheepish about pursuing him to the ends of the earth . . . or at least to the Land of the Pharaohs. Unfortunately, Atticus already has enemies in Egypt—including cat goddess Bast, who wants her own book of mischief back from the Druid. In the streets of Cairo, she sends a feline phalanx after Atticus and his Irish wolfhound, Oberon. With fur still flying, Atticus must locate the sorcerer's secret lair—where he will face killer crocodiles, spooky sarcophagi, and an ancient evil Egyptian who's determined to order the sacrificial lamb special tonight. Includes an excerpt from Kevin Hearne's *Iron Druid Chronicles* novel *Hunted!* Praise for Kevin Hearne and *The Iron Druid Chronicles* "Celtic mythology and an ancient Druid with modern attitude mix it up in the Arizona desert in

this witty new fantasy series."—Kelly Meding, author of *Three Days to Dead* "[Atticus is] a strong modern hero with a long history and the wit to survive in the twenty-first century. . . . A snappy narrative voice . . . a savvy urban fantasy adventure."—Library Journal, on *Hounded* □ 55% OFF for Bookstores! NOW at \$ 15.29 instead of \$ 33.97! Nikolai Leskov is the strangest of the great Russian writers of the nineteenth century. His work is closer to the oral traditions of narrative than that of his contemporaries, and served as the inspiration for Walter Benjamin's great essay "The Storyteller," in which Benjamin contrasts the plotty machinations of the modern novel with the strange, melancholy, but also worldly-wise yarns of an older, slower era that Leskov remained in touch with. The title story is a tale of illicit love and multiple murder that could easily find its way into a Scottish ballad and did go on to become the most popular of Dmitri Shostakovich's operas. The other stories, all but one newly translated, present the most focused and finely rendered collection of this indispensable writer currently available in English. □ 55% OFF for Bookstores! LAST DAYS! □ In the summer of 2000 David Haward Bain and his family left their home in Vermont and headed west in search of America's past. Spiritually, their journey began on a Kansas trail where the author's grandmother was born in a covered wagon in 1889. Between the Missouri River and the Golden Gate, they retraced the entire route of the first transcontinental railroad and large stretches of the Oregon and California trails, and the equally colorful old Lincoln Highway. Following vanished iron rails and wagon wheel ruts, bumping down backroads and main streets, they discovered the deep, restless, uniquely American spirit of adventure that connects our past to our present. A superb writer and an exacting researcher, Bain conjures up a marvelous sense of coming unstuck in time as he lingers in the ghost towns and battlegrounds, prairies and river ports, trainyards, museums, deserts, and diners that line his cruise west to California. Bain encounters a fascinating cast of characters, both historic and contemporary, as well as memories of his grandparents and the journeys that shaped his own heritage. Writing in the tradition of William Least Heat-Moon and Ian Frazier, and with an engaging warmth and a deep grasp of history all his own, Bain has fashioned a quintessentially American journey. Since its creation in 1884, *Engineering Index* has covered virtually every major engineering innovation from around the world. It serves as the historical record of virtually every major engineering innovation of the 20th century. Recent content is a vital resource for current awareness, new

production information, technological forecasting and competitive intelligence. The world's most comprehensive interdisciplinary engineering database, Engineering Index contains over 10.7 million records. Each year, over 500,000 new abstracts are added from over 5,000 scholarly journals, trade magazines, and conference proceedings. Coverage spans over 175 engineering disciplines from over 80 countries. Updated weekly. 16 The Iron Heel is a dystopian novel by American writer Jack London. Generally considered to be "the earliest of the modern Dystopian", it chronicles the rise of an oligarchic tyranny in the United States. The novel is based on the (fictional) "Everhard Manuscript" written by Avis Everhard which she hid and which was subsequently found centuries later. In addition, this novel has an introduction and series of (often lengthy) footnotes written from the perspective of scholar Anthony Meredith. Meredith writes from around 2600 AD or 419 B.O.M. (the Brotherhood of Man). Jack London thus writes at two levels, often having Meredith condescendingly correcting the errors of Everhard yet, at the same time, exposing the often incomplete understanding of this distant future perspective. Meredith's introduction also acts as a deliberate "spoiler" (the term did not yet exist at the time of writing). Before ever getting a chance to get to know Avis and Ernest, how they fell in love or how Avis became politically involved, the reader is already told that all their struggles and hopes would end in total failure and repression, and that both of them would be summarily executed. This gives all that follows the air of a foreordained tragedy. There is still left the consolation that a happy end would come for humanity as a whole – though hundreds of years too late for Avis and Ernest as individuals; the cruel oligarchy would fall, and the two will be vindicated and respected by posterity as pioneers and martyrs. The Oligarchy are the largest monopoly trusts (or robber barons) who manage to squeeze out the middle class by bankrupting most small to mid-sized business as well as reducing all farmers to effective serfdom. This Oligarchy maintains power through a "labor caste" and the Mercenaries. Labor in essential industries like steel and rail are elevated and given decent wages, housing, and education. Indeed, the tragic turn in the novel (and Jack London's core warning to his contemporaries) is the treachery of these favored unions which break with the other unions and side with the Oligarchy. Further, a second, military caste is formed: the Mercenaries. The Mercenaries are officially the army of the US but are in fact in the employ of the Oligarchs. Most people know that England shipped thousands of convicts to Australia, but few are aware that colonial America was the original destination for Britain's unwanted criminals. In the 18th century, thousands of British convicts were separated from their families, chained together in the hold of a ship, and carried off to America, sometimes for the theft of a mere handkerchief. What happened to these convicts once they arrived in America? Did they prosper in an environment of unlimited opportunity, or were they ostracized by the other colonists? Anthony Vaver tells the stories of the petty thieves and professional criminals who were punished by being sent across the ocean to work on plantations. In bringing to life this forgotten chapter in American

history, he challenges the way we think about immigration to early America. The book also includes a helpful appendix with tips on researching individual convicts transported to America. Once you try any one of these amazing recipes with your favorite cast-iron pan, you'll find there's no need to ever put it away...because you're sure to be using it every day! 2021 IACP Award Winner in the General Category Increase your meat counter confidence with this must-have companion for cooking beef, pork, lamb, and veal with more than 300 kitchen-tested recipes. Part cookbook, part handbook organized by animal and its primal cuts, Meat Illustrated is the go-to source on meat, providing essential information and techniques to empower you to explore options at the supermarket or butcher shop (affordable cuts like beef shanks instead of short ribs, lesser-known cuts like country-style ribs, leg of lamb instead of beef tenderloin for your holiday centerpiece), and recipes that make those cuts (72 in total) shine. Meat is a treat; we teach you the best methods for center-of-the-plate meats like satisfying Butter-Basted Rib Steaks (spooning on hot butter cooks the steaks from both sides so they come to temperature as they acquire a deep crust), meltingly tender Chinese Barbecued Roast Pork Shoulder (cook for 6 hours so the collagen melts to lubricate the meat), and the quintessential Crumb-Crusted Rack of Lamb. Also bring meat beyond centerpiece status with complete meals: Shake up surf and turf with Fried Brown Rice with Pork and Shrimp. Braise lamb shoulder chops

in a Libyan-style chickpea and orzo soup called Sharba. Illustrated primal cut info at the start of each section covers shopping, storage, and prep pointers and techniques with clearly written essays, step-by-step photos, break-out tutorials, and hundreds of hand-drawn illustrations that take the mystery out of meat prep (tie roasts without wilderness training; sharply cut crosshatches in the fat), so you'll execute dishes as reliably as the steakhouse. Learn tricks like soaking ground meat in baking soda before cooking to tenderize, or pre-roasting rather than searing fatty cuts before braising to avoid stovetop splatters. Even have fun with DIY curing projects. ☐ 55% OFF for Bookstores! NOW at \$ 10.79 instead of \$ 23.97! LAST DAYS! ☐ Your Customers Never Stop to Use this Awesome Cookbook!
