This book constitutes the workshop proceedings of the 21st International Conference on Database Systems for Advanced Applications, DASFAA 2016, held in Dallas, TX, USA, in April 2016. The volume contains 32 full papers (selected from 43 submissions) from 4 workshops, each focusing on a specific area that contributes to the main themes of DASFAA 2016: The Third International Workshop on Semantic Computing and Personalization, SeCoP 2016; the Third International Workshop on Big Data Management and Service, BDMS 2016; the First International Workshop on Big Data Quality Management, BDQM 2016; and the Second International Workshop on Mobile of Internet, MoI 2016. Four volumes of history and biography for fans of the Aubrey-Maturin novels, with lore on the Royal Navy and much more. What is a sandgrouse, and where does it live? What are the medical properties of *lignum vitae*, and how did Stephen Maturin use it to repair his viola? Who is Adm. Lord Keith, and why is his wife so friendly with Capt. Jack Aubrey? More than any other contemporary author, Patrick O'Brian knew the past. His twenty Aubrey-Maturin novels, beginning with *Master and*

Commander (1969), are distinguished by deep characterization, heart-stopping naval combat, and an attention to detail that enriches and enlivens his stories. In the revised edition of *A Sea of Words*, Dean King and his collaborators dive into Jack Aubrey's world. In the revised edition of *Harbors and High Seas*, King details not just where Aubrey and Maturin went, but how they got there. Packed with maps and illustrations from the greatest age of sail, it is an incomparable reference for devotees of O'Brian's novels and anyone who has dreamed of climbing aboard a warship, as well as a captivating portrait of life on the sea during a time when nothing stood between man and ocean but grit, daring, and a few creaking planks of wood. At the dawn of the nineteenth century, the British navy was the mightiest instrument of war the world had ever known. The Royal Navy patrolled the seas from India to the Caribbean, connecting an empire with footholds in every corner of the earth. Such a massive navy required the service of more than 100,000 men—from officers to deckhands to surgeons. Their stories are collected in *Every Man Will Do His Duty*. The inspiration for the bestselling novels of Patrick O'Brian and C. S. Forester, these twenty-two memoirs and diaries, edited by Dean King, provide a true portrait of life aboard British warships during one of the most significant eras of world history. Patrick O'Brian was well into his

seventies when the world fell in love with his greatest creation: the maritime adventures of Royal Navy Capt. Jack Aubrey and ship's surgeon Stephen Maturin. But despite his fame, little detail was available about the life of the reclusive author, whose mysterious past King uncovers in this groundbreaking biography. King traces O'Brian's personal history from his beginnings as a London-born Protestant named Richard Patrick Russ to his tortured relationship with his first wife and child to his emergence from World War II with the entirely new identity under which he would publish twenty volumes in the Aubrey-Maturin series. What King unearths is a life no less thrilling than the seafaring world of O'Brian's imagination. *Patrick O'Brian: A Life Revealed* is a penetrating and insightful examination of one of the modern world's most acclaimed historical novelists. This collection of major essays by the distinguished Finnish New Testament scholar will prove an invaluable sourcebook for students of this much-debated complex of problems. All things work together . . . Come to me, all who are weary . . . Trust in the Lord with all your heart . . . The hairs of your head have all been counted . . . Mercy shall follow me all the days of my life. Despite decades of preaching experience, it was just a few years ago that best-selling author Robert J. Morgan (*Then Sings My Soul*) began to note the magnitude and frequent

use of the word "all" in the Bible. Upon closer inspection, it appears to amplify many of God's greatest truths, commands, and promises nearly six thousand times, proving itself to be what Morgan calls "the largest little word in the world." My All in All is the fruit of his unique study, a 365-day devotional that will assure readers of God's purposes, power, and grace time and again. By expanding the definition of "epistle" to include any writing that addresses the intended receiver directly, JaHyun Kim Haboush introduces readers to the rich epistolary practice of Chosŏn Korea. The Chosŏn dynasty (1392-1910) produced an abundance of epistles, writings that mirror the genres of neighboring countries (especially China) while retaining their own specific historical trajectory. Written in both literary Chinese and vernacular Korean, the writings collected here range from royal public edicts to private letters, a fascinating array that blurs the line between classical and everyday language and the divisions between men and women. Haboush's selections also recast the relationship between epistolography and the concept of public and private space. Haboush groups her epistles according to where they were written and read: public letters, letters to colleagues and friends, social letters, and family letters. Then she arranges them according to occasion: letters on leaving home, deathbed letters,

letters of fiction, and letters to the dead. She examines the mechanics of epistles, their communicative space, and their cultural and political meaning. With its wholly unique collection of materials, Epistolary Korea produces more than a vivid chronicle of pre- and early modern Korean life. It breaks new ground in establishing the terms of a distinct, non-European form of epistolography. A compelling and inspiring account, A Thousand Times Yes is the spiritual journey of two doctors who heard and answered God's call. Willing to face danger, reject societal expectations, and live a primitive lifestyle, they experienced God's love as they made a difference in the world and raised five sons. This book gathers together contributions by experts from leading international research institutions and industries. The articles have been organized in a self-consistent form, with the objective of giving basic, updated information to scientists and engineers from developing countries on modern methods for the computation and analysis of nuclear reactors, with particular emphasis on reactor physics, design and safety. This title tackles issues relevant to leadership in the realm of religion. It explores such themes as the contexts in which religious leaders move, leadership in communities of faith, leadership as taught in theological education and training, religious leadership impacting social change and

social justice, and more. Topics are examined from multiple perspectives, traditions, and faiths. “Cast all your cares on him.” “Love the Lord with all your heart.” “I can do all things” You’d be surprised how often the word “all” appears in the Bible—thousands of times. And with each description of God’s comprehensive promises, each reminder of our complete blessing in Christ, each appeal for our full and total surrender, His reputation grows larger before our eyes. We see again what He can do. We see again who we can be. From Robert J. Morgan (100 Bible Verses Everyone Should Know by Heart, Then Sings My Soul) comes All to Jesus, a choice sampling of the Bible’s most “all”-encompassing statements, surrounded each day by inspiring stories, personal reflections, and the encouraging assurance that you are cared for in ways you never imagined. Derived from the pages of real life and a pastor’s heart, each daily reading meets you in an ever-deeper place, revealing God’s immeasurable power and keen attention to the smallest detail. Truly, He is all you need. All year long. A brand-new year’s worth of inspiring stories from the front lines of faith — 366 new devotions from missionaries around the globe. In these pages, you’ll hike mountain paths, jolt down rutted desert roads, and pick your way through teeming markets and crowded urban slums. You’ll meet boisterous children, worried

parents, anxious teens, and curious seniors—all hungry, whether they know it or not, for the Good News. You'll witness moments of looming danger and crushing heartache, moments of shining hope and pure miracle. You'll be inspired anew by those who dare to obey God's call to take His story to the ends of the earth. And you'll be encouraged to pray for those who dare to open their hearts not only to the message but also to the One who calls and sustains them. The art of any story is the truth that it paints. I pray you'll find this book chock-full of truth. I pray that every single entry causes words of Scripture to jump off the page and onto the pavement of authentic human experiences, causing you not only to see their lives differently but also to change the way you see your own. — from the Introduction by Beth Moore

All royalties for the Voices of the Faithful series support the work of the International Mission Board. Before healing can begin for two women struggling with feelings of guilt from their pasts, they need to believe they are worth cherishing. Kelli London once dreamed of being a songwriter. As crazy as it seemed, she hoped God would use the lyrics that came to her even while she slept. She dreamed about Brian too, that the love they shared as high-school students would grow into marriage. But choices that still haunt her destroyed those dreams. Until now—when a series of love letters reawakens her

hope for the future. Heather Anderson's life has spun out of control—first, an affair with a married man, then a one-night stand with the drummer of a popular Christian band has left her devastated. Broken and alone, she cried out to the only One able to save her. He met her there, but it was just the beginning. Because now she must take a different path. And the one God has planned for her looks nothing like the one she envisioned. As Kelli and Heather awaken to their true worth, they find the freedom to pursue their dreams—and relationships—based on the security of knowing God's unconditional love. Powerful contemporary Christian fiction Includes discussion questions for book clubs Also by Kim Cash Tate: *The Color of Hope*, *Faithful*, *Hope Springs*, and *Hidden Blessings* This book provides a comprehensive coverage of the fields Geometric Modeling, Computer-Aided Design, and Scientific Visualization, or Computer-Aided Geometric Design. Leading international experts have contributed, thus creating a one-of-a-kind collection of authoritative articles. There are chapters outlining basic theory in tutorial style, as well as application-oriented articles. Aspects which are covered include: Historical outline Curve and surface methods Scientific Visualization Implicit methods Reverse engineering. This book is meant to be a reference text for researchers in the field as

well as an introduction to graduate students wishing to get some exposure to this subject. A survey of one-relator products of cyclics or groups with a single defining relation, extending the algebraic study of Fuchsian groups to the more general context of one-relator products and related group theoretical considerations. It provides a self-contained account of certain natural generalizations of discrete groups. Deductive databases and object-oriented databases are at the forefront of research in next-generation intelligent database systems. Object-oriented programming and design methodologies have great potential, promising to reduce the complexity of very large software systems in such domains as computer-aided design and manufacturing, integrated office information systems, and artificial intelligence. Object-oriented database systems will enhance the programmer/user productivity of such systems. Research into deductive databases is aimed at discovering efficient schemes to uniformly represent assertions and deductive rules, and to respond to highly expressive queries against the knowledge base of assertions and rules. This area of research is strongly interacting with Logic Programming which has developed in parallel, sharing Logic as a common basis. Recently, research has aimed at integrating the object-oriented paradigm and rule-based deduction to

provide a single powerful framework for intelligent database systems. The aim of this book is to present research papers and technical discussions between researchers concerned with deductive databases, object-oriented databases, and their integration. This comparative book brings together scholars to examine the changing patterns of feminist activism and the new local, global and cyber spaces in which it is to be found. It addresses the question 'where have women's movements gone?' "365-day devotional features incredible stories of God's faithfulness in the face of uncertainty and danger"--Provided by publisher. Now in paperback, two fiercely avid Red Sox fans document one of the most eagerly anticipated baseball seasons of all time. From devoted fans O'Nan and King comes this unique chronicle of one baseball team's journey from spring training to post-season play. China's rapid rise as a regional and global power is one of the most important political developments of the twenty-first century. Yet the West still largely overlooks or oversimplifies the complex ideas and ideals that have shaped the country's national and international transformation from antiquity to the present day. In this beautifully written introductory text, Youngmin Kim offers a uniquely incisive survey of the major themes in Chinese political thought from customary community to empire, exploring their theoretical

importance and the different historical contexts in which they arose. Challenging traditional assumptions about Chinese nationalism and Marxist history, Kim shows that "China" does not have a fixed, single identity, but rather is a constantly moving target. His probing, interdisciplinary approach traces the long and nuanced history of Chinese thought as a true tradition anchored in certain key themes, many of which began in the early dynasties and still resonate in China today. Only by appreciating this rich history, he argues, can we begin to understand the intricacies and contradictions of contemporary Chinese politics, economy, and society. Examines internal changes in North Korea under the expanding rule of Kim Jong Il. The divided families problem is a serious social issue in North and South Korea, involving hundreds of thousands of first generation divided family members, most of whom have not seen their relatives since the Korean War. It is the most pressing humanitarian issue between the two Koreas, and is connected to the greater issue of human rights in North Korea today. However, little serious academic work exists on the subject, in either English or Korean. This new study, based on research conducted in Korea, including interviews in 2001 with Korean families who benefited from the most recent exchanges, addresses the many issues surrounding the divided

family problem, and highlights its importance in the path towards Korean rapprochement. Do you have the courage...the faith...the fire? Loving the world like God does involves extreme sacrifice. Living the passionate, courageous life Jesus challenged us all to live also has radical effects, demonstrated in these 366 true accounts of fellow believers from around the world: A Christian claims the names of God at knifepoint - and lives to tell about it. . . Prayer revives a coma victim, in defiance of village witch doctors. . . A former Muslim finds forgiveness in the Jesus she denied. . . Prayerwalking college students lay a foundation for spiritual revival in West Africa . . . If you're bored with your comfort-fit Christianity, if you're ready for God to shake you awake, then take the challenge. Find out in these pages what on earth God is doing in your generation. . .and discover your role in making a difference in the world.

The Asian Logic Conference is the most significant logic meeting outside of North America and Europe, and this volume represents work presented at, and arising from the 12th meeting. It collects a number of interesting papers from experts in the field. It covers many areas of logic. Contents: Resolute Sequences in Initial Segment Complexity (G Barmpalias and R G Downey) Approximating Functions and Measuring Distance on a Graph (W Calvert, R Miller and J Chubb Reimann) Carnap and McKinsey: Topics in

the Pre-History of Possible-Worlds Semantics (M J Cresswell) Limits to Joining with Generics and Randoms (A R Day and D D Dzhafarov) Freedom & Consistency (M Detlefsen) A van Lambalgen Theorem for Demuth Randomness (D Diamondstone, N Greenberg and D Turetsky) Faithful Representations of Polishable Ideals (S Gao) Further Thoughts on Definability in the Urysohn Sphere (I Goldbring) Simple Completeness Proofs for Some Spatial Logics of the Real Line (I Hodkinson) On a Question of Csima on Computation-Time Domination (X Hua, J Liu and G Wu) A Generalization of Beth Model to Functionals of High Types (F Kachapova) A Computational Framework for the Study of Partition Functions and Graph Polynomials (T Kotek, J A Makowsky and E V Ravve) Relation Algebras and R (T Kowalski) Van Lambalgen's Theorem for Uniformly Relative Schnorr and Computable Randomness (K Miyabe and J Rute) Computational Aspects of the Hyperimmune-Free Degrees (K M Ng, F Stephan, Y Yang and L Yu) Calibrating the Complexity of Δ^0_2 Sets via Their Changes (A Nies) Topological Full Groups of Minimal Subshifts and Just-Infinite Groups (S Thomas) TW-Models for Logic of Knowledge-cum-Belief (S C-M Yang) Readership: Researchers in mathematical logic and algebra, computer scientists in artificial intelligence and fuzzy logic. This is the first serious study on seventeenth-century Central Asian medicine that provides a major resource for the linguistic and cultural history of Central Asia. The richly annotated English translation from the Chagatay original makes the edition useful for readers without special knowledge on medical history and Turkic studies. The edition includes an introduction, a transcription, an annotated English translation, seven lexica and two manuscripts in facsimile. This book provides concise coverage of the major Asian American groups from both an historical and socio-cultural perspective. Coverage of each major group--Chinese, Japanese, Filipinos, Asian Indians, Koreans, Pacific Islanders, and newer Asian American groups--especially those from Southeast Asia and South Asia--provides readers with a balanced overview of all cultures within US Asian society. Content reflects developments of the late 1990s and includes updated demographic information. For research in sociology, history, and ethnic studies professions. All royalties for the Voices of the Faithful series support the work of the International Mission Board. Published on the first anniversary of his death, this meticulously researched biography delves into the secrecy and confusion surrounding Patrick O'Brian, author of the Aubery-Maturin series of novels. "[O'Brian] devotees should rejoice in this account of his life, written with appreciative balance, rich with literary insight".--"Los Angeles Times". 16-page photo insert. Fellowship With our society's sometimes unfavorable view of Christians, it is all the more important that believers display what Dr. David Jeremiah calls signs of life — signs that Jesus has transformed us and that we are committed to Him and His kingdom. They are signs that ought to be detected from across the street, over the fence, down the hall, throughout the office, or in the pews, for it's not enough to just talk about Jesus. It's also not enough to serve Him in secret with our acts of private devotion. We have to display the lifestyle of the Nazarene in the midst of a corrupt and darkened culture. In a world starved for love, joy, peace, patience, kindness, faithfulness, honesty, relevance, and compassion, Christians should specialize in exactly those things through public expressions of private faith. It's by our smile, our compassion in the face of misfortune, our friendliness, our simple lifestyle, our willingness to commit random acts of kindness, our social ministries, our tears, and our words that unbelievers recognize Who we represent. Signs of Life will lead you on a journey to a fuller understanding of the marks that identify you as a Christian. Signs that will advertise your faith. Personal imprints that can impact souls for eternity and help you become a person of influence who radiates relevancy, authenticity, generosity, and compassion every day — just like Jesus did. The

second volume in Travis B. Williams' and David G. Horrell's magisterial ICC commentary on first Peter. Williams and Horrell bring together all the relevant aids to exegesis - linguistic, textual, archaeological, historical, literary, and theological - to help the reader understand the letter. This second covers the major part of the letter, providing commentary on 2.11 to the end of the letter. The exegesis provides for each passage sections on bibliography, text-criticism, literary introduction, detailed exegesis, and overall summary. The volume concludes with a comprehensive bibliography, which covers the whole epistle. This six-week study with real stories from students, inspires students to look beyond themselves and see a world that desperately needs Christ. Great preparation for a mission trip.

The Life and Works of Korean Poet Kim Myŏng-sun offers an introduction to Korea's first modern woman writer to publish a collection of creative works, Kim Myŏng-sun (1896-ca. 1954). Despite attempts by male contemporaries to assassinate her character, Kim was an outspoken writer and an early feminist, confronting patriarchal Korean society in essays, plays, poems, and short stories. This volume is the first to offer a detailed analysis in English of Kim's poetry. The poems examined in this volume can be considered early twentieth-century versions of #MeToo literature, mirroring

the harrowing account of her sexual assault, and also subversive challenges to traditional institutions, dealing with themes such as romantic free love, same-sex love, single womanhood, and explicit female desire and passion. *The Life and Works of Korean Poet Kim Myŏng-sun* restores a long-neglected woman writer to her rightful place in the history of Korean literature, shedding light on the complexity of women's lives in Korea and contributing to the growing interest in modern Korean women's literature in the West.
