Passing the MRCOG Part 2 exam is essential to complete further training in O&G, both in the UK and for many doctors across the world. There are two annual sittings in the UK, plus the candidates sitting in Bangladesh, Egypt, Hong Kong, India, Iraq, Jordan, Malaysia, Pakistan, Saudi Arabia, Sudan, UAE, West Indies and China. It is a notoriously difficult exam, with a pass rate of c. 20%. From March 2015 there will be a change to one of the two written papers for MRCOG Part 2. Single best answer questions (SBAs) a new format - worth 40% of the total Part 2 mark. This book consists of 200 questions in the new SBA exam format, and will present a question followed by a detailed answer and feedback. This tool can help a school to assess its physical activity and nutrition policies and programs based on national standards and guidelines. When learning progressions and success criteria are clear,

students achieve. It's that simple—because it indicates that teachers are intentional and learners know both the why and the how behind every endeavor. With *The Teacher Clarity Playbook*, you now have the tools and templates to make it happen. Designed for PLCs or independent teacher use, it guides practitioners to align lessons, objectives, and outcomes of learning seamlessly, so that the classroom hours flow productively for everyone. Written by Douglas Fisher, Nancy Frey, Olivia Amador, and Joseph Assof, educators dedicated to making high-impact, research-based practices a part of every teacher's repertoire. In this elementary textbook, Philip S. Peek draws on his twenty-five years of teaching experience to present the ancient Greek language in an imaginative and accessible way that promotes creativity, deep learning, and diversity. The course is built on three pillars: memory, analysis, and logic. Readers memorize the top 250 most frequently occurring ancient Greek words, the essential word endings, the eight parts of speech, and the grammatical concepts they will most frequently encounter when reading authentic ancient texts. Analysis and logic exercises enable the translation and parsing of genuine ancient Greek sentences, with compelling reading selections in English and in Greek offering starting points for contemplation, debate, and reflection. A series of embedded Learning Tips help teachers and students to think in practical and imaginative ways about how they learn. This combination of memory-based learning and concept- and skill-based learning gradually builds the confidence of the reader, teaching them how to learn by guiding them from a familiarity with the basics to proficiency in reading this beautiful language. *Ancient Greek I: A 21st-Century Approach* is written for high-school and university students, but is an instructive and rewarding text for anyone who wishes to learn ancient Greek. Longtime Myers collaborator Richard Straub's study guide is customized to follow the modular format and contents of the text. *NSW Q & A Physics Modules 7-8* provides exam-style questions for the 2018 Physics NSW Syllabus. Questions are sorted into sets (e.g. Spectra Of Stars; Wien's Displacement Law; Nuclear Decay) so that students can easily find questions for a specific topic. Detailed answers are provided. Besides the *Management of Portfolios (MoP®) Foundation Courseware - English* (ISBN: 9789401804516) publication you are advised to obtain the corresponding publication *Management of Portfolios* (ISBN: 9780113312948). MoP® Foundation certification is suitable for individuals wanting to demonstrate they have sufficient knowledge and understanding to work as an informed member of a Portfolio Office or in a range of portfolio management roles. This certification is aimed at those involved in a range of formal and informal portfolio management roles encompassing investment decision making, project and programme delivery, and benefits realization. The Foundation certification is also a pre-requisite for the Practitioner

certification. At the heart of any portfolio management approach is the need to identify the right programmes and projects to deliver an organization's strategy and ensure that targeted benefits are achieved. MoP® describes the principles and best-practices that will enable public and private sector organizations of all sizes to either introduce or re-energize portfolio management approaches. This Courseware is suited for the English Management of Portfolios (MoP®) Foundation exam Aircraft Engineering Principles is the essential text for anyone studying for licensed A&P or Aircraft Maintenance Engineer status. The book is written to meet the requirements of JAR-66/ECAR-66, the Joint Aviation Requirement (to be replaced by European Civil Aviation Regulation) for all aircraft engineers within Europe, which is also being continuously harmonised with Federal Aviation Administration requirements in the USA. The book covers modules 1, 2, 3, 4 and 8 of JAR-66/ECAR-66 in full and to a depth appropriate for Aircraft Maintenance Certifying Technicians, and will also be a valuable reference for those taking ab initio programmes in JAR-147/ECAR-147 and FAR-147. In addition, the necessary mathematics, aerodynamics and electrical principles have been included to meet the requirements of introductory Aerospace Engineering courses. Numerous written and multiple choice questions are provided at the end of each chapter, to aid learning. The first part of the book introduces and explains the new format of the Part 2 MRCOG exam, giving insightful advice on the skills required to write a good SBA question. The second part of the book contains chapters matched to the 15 of the 19 modules of the core curriculum, giving a comprehensive range of questions and answers with detailed explanations and references. For anyone preparing for the Part 2 MRCOG exam, this book will provide extensive and comprehensive practice and guidance from an expert author team. This edited collection challenges the perceptions of disciplinary, linguistic, geographical and ideological borders that run across language education. By highlighting commonalities and tracing connections between diverse sub-fields that have traditionally been studied separately, the book shows how the perspectives of practitioners and researchers working in diverse areas of language education can mutually inform each other. It consists of three thematic parts: Part I outlines the field of language education and challenges its definition by highlighting additional theoretical constructs that have tended to be viewed as separate from language education. Part II investigates curricular boundaries, showing how the language-learning curriculum can be enriched by connections with other curricular areas. Lastly, Part III looks into the challenges and opportunities associated with language education against the backdrop of globalisation. A concise eBook for the self-learner. The book covers the essential mathematical content for any student considering, or taking an MBA degree. All of the topics appear in a typical MBA program. Every chapter has practice questions, linked to video solutions. An integrative training approach with proven effectiveness. Education and Technology for a Better World was the main theme for WCCE 2009. The conference highlights and explores different perspectives of this theme, covering all levels of formal education as well as informal learning and societal aspects of education. The conference was open to everyone involved in education and training. Additionally players from technological, societal, business and political fields outside education were invited to make relevant contributions within the theme: Education and Technology for a Better World. For several years the WCCE (World Conference on Computers in Education) has brought benefits to the fields of computer science and computers and education as well as to their communities. The contributions at WCCE include research projects and good practice presented in different formats from full papers to posters, demonstrations, panels, workshops and symposiums. The focus is not only on presentations of accepted contributions but also on discussions and input from all participants. The main goal of these conferences is to provide a forum for the discussion of ideas in all areas of computer science and human learning. They create a unique environment in which researchers and practitioners in the fields of computer science and human learning can interact, exchanging theories, experiments, techniques, applications and evaluations of initiatives supporting new developments that are potentially relevant for the development of these fields. They intend to serve as reference guidelines for the research community.
